

Such an Impressive Lineup...

Innovative Erosion Control Solutions

Vegetation Establishment Mulch

...Even Mother Nature Would Be Proud!

- Replaces Blown Straw | Uniform Coverage
- Wood Mulch Replacement | Saves Money & Time
- Faster Loading & Application Times
- Get More Per Tank Load | Load More – Spray More

"Regardless of the magnitude of the project, Profile Products consistently provides forward thinking expertise along with efficient, sustainable and high quality products allowing Contractors to provide customers with a top-tier finished product."

Brian Young – Fox Erosion Control & Landscape, Inc.

HYDROSTRAW PRODUCT FORMULATIONS

**HIGH
EFFICIENCY
MULCH**

HYDRAULIC MULCHES

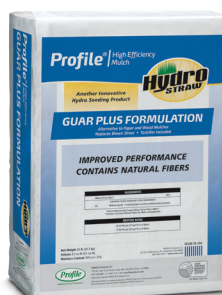

HE ALL IN ONE BFM

- Micronized Natural Fertilizer
- Biological Inoculant Food System
- Soil Building Attributes to Inhibit the Soil
- Designed for Disturbed Sites
- (V.E.M.) Vegetation Establishment Mulch
- Erosion Prevention for Steep Slopes & Critical Sites
- Cross Linked Binders
- Improve Wet Strength

HE BFM

- (V.E.M.) Vegetation Establishment Mulch
- Erosion Prevention for Steep Slopes & Critical Sites
- The Natural Progression in Hydraulic Mulch
- Cross Linked Binders Improve Wet Strength
- Load More Spray More - Use Less Water

HE PLUS

- Extra Strength for Difficult Slopes & Soil Conditions
- Eliminates In-Field Mixing Mess
- Reduces "Fish-Eyes"
- Increases Mulch Fiber Holding Performance
- Load More Spray More - Use Less Water

HE ORIGINAL

- Replaces Blown Straw
- Ideal for In-Field Mixing Binders
- Faster Loading & Application
- Replaces Paper & Wood Based Mulches
- Load More Spray More - Use Less Water

HAND APPLIED PRODUCTS

ALL PURPOSE STRAW

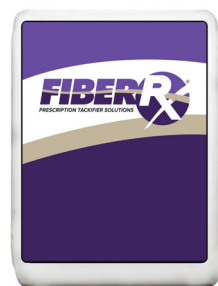

- New Seedlings, Pet Bedding, Mulching Gardens
- All Weather Packaging
- (H.M.T.) Heat & Mechanically Treated
- Convenience of Conventional Baled Straw, Now in a Bag
- Specially Formulated to be Hand Applied

ALL PURPOSE STRAW W/TACK

- New Seedlings, Pet Bedding, Mulching Gardens
- All Weather Packaging
- (H.M.T.) Heat & Mechanically Treated
- Convenience of Conventional Baled Straw, Now in a Bag
- Specially Formulated to be Hand Applied
- Contains 3% Tackifier

INFIELD SOLUTIONS

FIBER RX

- Proprietary Blend of Guar Gum Based Tackifiers
- Increases Performance of Hydraulically Applied Mulches
- Glues Fibers Together to Resist Movement from Rain & Wind
- Increases Viscosity for Easier & Uniform Application
- More Than 3 Times More Effective Controlling Erosion

DYE RX

- Easy to use rapid precision measurement tilt and pour container
- Treat up to 2400 gallons (9085 Liters)
- More efficient and economical than a traditional dye
- Safe for the environment - no added sulfates or dispersing aids
- Easy to Pour Dye Granule Crystal
- Increase your mulch color in the field

SEED PRODUCTS

VEGETATOR SEED MIXTURE COOL

- Cool Season Mixture
- Pre-formulated for successful establishment
- Fast Germinating mixtures
- Permanent Erosion Control
- Site specific seed recommendations
- Mixtures designed for the West & East Climates
- Drill Seeding or Hydro Seeding Compatibility

VEGETATOR SEED MIXTURE WARM

- Warm Season Mixture
- Pre-formulated for successful establishment
- Fast Germinating mixtures
- Permanent Erosion Control
- Site specific seed recommendations
- Mixtures designed for the West & East Climates
- Drill Seeding or Hydro Seeding Compatibility

VEGETATOR SEED MIXTURE EXTREME WARM

- Extreme Warm Season Mixture
- Pre-formulated for successful establishment
- Fast Germinating mixture
- Permanent Erosion Control
- Site specific seed recommendations
- Mixtures designed for the West & East Climates
- Drill Seeding or Hydro Seeding Compatibility

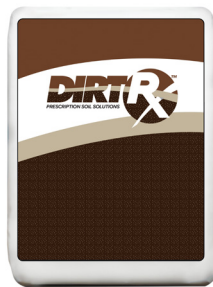

DUST CONTROL

DUST RX

- Optimal bonding and elasticity when applied to fine or granular materials
- Reduced water surface tension for increased wetting capacity and deeper water penetration
- Improved Quality of Roads
- Durable, water resistant surface
- Reduced water consumption
- Concentrated formula
- Effective at high dilution rates
- Easy loading and mixing

SOIL AMENDMENTS

DIRT RX

- Improve Organic Matter
- Faster Vegetation Starts and Stronger Stands
- Increase Water Infiltration
- Increase Soil Biology
- Highly Concentrated Formula
- Homogeneous Prill Technology
